

Plan First

Virginia's Limited Benefit Family Planning Coverage for Men and Women

What is *Plan First*?

Plan First is Virginia's limited-benefit Medicaid program that provides free family planning services to women and men who do not qualify for full-benefit Medicaid. Members are mailed a *Plan First* ID card with their name and ID number on it. This card must be shown to the doctor, clinic, or pharmacy before receiving care. ***Only family planning services will be covered.***

What Does *Plan First* Cover?

- Yearly physical exams for family planning including a PAP test
- Sexually Transmitted Infection (STI) testing
- Family planning education & counseling
- Birth control methods provided by a doctor or obtained with a prescription such as contraceptive implants, rings, patches, IUDs, birth control pills, diaphragms, Depo Provera, and condoms
- Sterilization (tubal ligations and vasectomies)
- Non-Emergency transportation to family planning services, including to pick up a family planning prescription

What Services are Not Covered?

- Non-family planning services such as exams, preventative services, and prescriptions
- Treatment for medical problems, including STIs or other reproductive health problems
- Repeat PAP tests due to a problem or PAP tests for women who do not need birth control
- Hysterectomies
- Mammograms
- Infertility treatments
- Abortions
- Emergency transportation -- ground or air ambulance

Plan First members may also be eligible for affordable, high-quality health insurance with comprehensive coverage through Virginia's Insurance Marketplace. Virginia's Insurance Marketplace is the only place to apply for financial savings to help lower monthly health insurance costs.
